

Payroll Outsourcing Services

Powered by Workday Partners

Workday offers a flexible approach to managing the full spectrum of your organisation's payroll needs through our partners' outsourcing services. Workday customers can use Workday Payroll as the core application for payroll processing and take advantage of a comprehensive menu of managed services from our partners Alight Solutions, everBe, HRPath, NorthgateArinso (dba NGA Human Resources), and OneSource Virtual. From tax and garnishment administration services to call centres, Workday customers have the flexibility to choose which services they want to outsource.

Payroll outsourcing services

Payroll outsourcing services enable Workday customers to outsource payroll administration, payroll processing, and other non-strategic or non-scalable payroll tasks to Workday Partners. Customers retain control of their core payroll processes by using Workday Payroll to automate and configure their gross-to-net calculations, change any component and calculate and recalculate payroll on the fly. With Workday Payroll, customers can determine which complementary payroll services are best managed by Workday outsourcing partners to maximise their Workday investment.

- Gain more flexibility and choice by choosing the best-fit technology- and payroll-services vendor.
- Ensure visibility into data and improve control over strategic payroll-processing activities.
- Reduce the manual effort of processing time-consuming payroll, tax and garnishment tasks.

Payroll administration services

Customers can take advantage of outsourcing payroll administration services, such as configuration and maintenance of Workday Payroll, payroll processing, direct deposit processing, cheque printing, and payroll settlement and funding. Meanwhile, Workday Payroll offers complete control and visibility into payroll data. Everything is performed in your Workday Payroll application so that your data is always accurate, in real time, and accessible. There is no need to transmit data to a processing centre, to wait on a batch process or to manage integrations to a third-party payroll system.

Key features and benefits

- Payroll configuration and maintenance
- Payroll processing
- Direct-deposit processing
- Cheque printing and distribution
- Payroll settlement and funding
- Printing, distribution and filing
- Tax filings and deposits (processing of daily, quarterly and annual tax obligations)

- Garnishment administration
- Support for the US and Canada by Alight, NGA Human Resources, and OneSource Virtual
- Support for the UK by Alight and OneSource Virtual
- Support for France by Alight, HRPath, and everBe

All outsourcing services:

Tax and garnishment administration

Our partners process daily, quarterly, and annual tax obligations; state-specific disability and unemployment payments; and tax filings (W2/W2-C in the US, T4/RL in Canada, and RTI in the UK). They also process garnishment wage orders and provide them to the appropriate agencies.

Dedicated support team

Our partners offer customer-support services for payroll enquiries from employees. They also provide dedicated teams of payroll and tax specialists to work with your tax department so that you always stay compliant.

Get the best of both worlds

Workday Payroll outsourcing services enable you to maximise your investment in Workday Human Capital Management (HCM) and Workday Payroll. With Workday, you have control of and visibility into your data, faster turnaround times on payroll runs, and flexibility in your configuration. All this is supported by a dependable services team from one of our outsourcing services partners.

If your organisation ever decides it no longer requires outsourcing services, there is no need to reimplement a payroll application. Just take over the payroll-management processes using your existing Workday Payroll application. Workday is committed to providing you with the payroll application that best fits your needs, today and in the future.

About our payroll outsourcing services partners

Alight
